For driveways or heavy infestations, clean off by brushing after 3 days and reapply if necessary.</p>

### GENERAL INSTRUCTIONS:

#### SHAKE WELL BEFORE USE

Spray to ensure complete coverage of unwanted plants to the point of run off. Optimal results are achieved when HomeSafe Weed Terminator Plus Ready-to-Use Spray Mixture is applied in full sun to small, actively growing plants. HomeSafe Ready-to-Use Weed Terminator works by dehydrating the plant. Results are seen as browning and wilting, usually within hours of application. To be effective, spray mixture must come into contact with the green parts of the plants.

**STORAGE & DISPOSAL:** Keep out of reach of children. Store in the closed, original container in a cool, dry place. Do not

store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.

**SAFETY DIRECTIONS:** Will irritate the eyes and skin. Repeated exposure may cause allergic disorders. Avoid contact with skin and eyes. When using the product wear rubber gloves and safety glasses. If product in eyes, wash it out immediately with water. Wash hands after use.

**FIRST AID:** First aid is not generally required. If in doubt, contact a Poisons Information Centre (phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.
